

Hadiqua Taiba

(647) 785-5937, hadiqua350@gmail.com, github.com/hadiquaa

Software Engineer with hands-on experience in building responsive, scalable web and mobile applications using React, Node.js. Skilled in modern JavaScript, Typescript, RESTful APIs, and clean UI design. Proven ability to deliver performant, user-centric solutions and collaborate effectively in fast-paced, agile environments. Quick to learn, focused on results, and driven to contribute to high-impact teams.

WORK EXPERIENCE

Software Engineer Intern

Oct 2024 – April 2025

Walmart

Bentonville, Arkansas

- Worked on the profile project creating both web and mobile application for internal organization as well as part of the public Walmart plus app using both React and React Native targeting all iOS devices as well as android.
- Used Xcode for testing the application on all iOS devices and android simulator for testing the application on all android devices
- Researched and used various libraries and modules in React to help tackle problems such as pagination, slider, component level models, calendar, and text box editor etc.
- Maintained a 95% threshold coverage for unit tests across our application writing tests covering all functions, statements and branches using jest.
- Alongside of developing the applications was also involved in daily builds of our application in various environment which were thoroughly tested before it could reach production environment.
- Developed scalable applications using TypeScript to ensure strong type safety and reduce runtime errors.
- Integrated GraphQL with RESTful services, handling data transformation and aggregation for frontend consumption.
- Involved in various phases of Software Development Life Cycle (SDLC) such as requirements gathering, modeling, analysis, design, and development.
- Worked in a collaborative team-environment and communicate status to both technical and non-technical project

Junior Web Developer

Jun 2022- Dec 2023

Wipro

Bengaluru, India

- Developed page layouts, navigations and presented designs and concepts to the clients and the management review
- Worked closely with the project management and marketing team to completely define specifications to help ensure project acceptance
- Worked in a collaborative team-environment and communicate status to both technical and non-technical project members
- Created various widgets and dashboards and experience with high charts across the application using React
- Fixed defects and tracked them using Quality Center to completion by communicating and co-coordinating with the QA and business analysts
- Supported database optimization and API integration tasks using MS SQL and RESTful
- Developed a fully functional login page for the company's user facing website with complete UI and validations
- Coordinated with BA group and conducted several feedback from different organizations for implementing a better user friendly and interactive website for easy access

EDUCATION

Biju Pattnaik University of Technology, Bachelor of Computer Science Engineering, 3.61 GPA, 2022

SKILLS

Front End: React, React Native, Redux, JavaScript, Html5, CSS, Angular, Xcode, Android Simulator, Typescript, Figma

Cloud & DevOps: AWS Certified Developer, Microsoft Azure Developer Associate, Git, GitHub, CI/CD basics

Testing: Jest, Enzyme

Dev Tools: Git, Jira, Chrome Dev tools, React dev tools

Other: GraphQL, Axios, Agile

HONORS AND CERTIFICATION

- Meta Full Stack Developer Certificate – Coursera
- Microsoft Certified: Azure Developer Associate
- AWS Certified Developer
- IBM AI Engineering
