PROFILE

Full Stack Developer with hands-on experience in building responsive, scalable web applications using React, Node.js, and MongoDB. Skilled in modern JavaScript, RESTful APIs, and clean UI design. Proven ability to deliver performant, user-centric solutions and collaborate effectively in fast-paced, agile environments. Quick to learn, focused on results, and driven to contribute to high-impact teams.

PROFESSIONAL EXPERIENCE

Full Stack developer(Contract), *Techsphere Solutions LLC – Frisco, TX, USA (Remote)*   03/2024 – 09/2024
                                                                                                           USA
- Built full-stack modules for a healthcare platform using React.js, Node.js, and MongoDB.
- Implemented JWT-based authentication and integrated third-party APIs like Stripe and Twilio.
- Collaborated with cross-functional U.S. teams in Agile sprints; deployed features to AWS EC2.
- Optimized database queries and React components, improving performance by 30%.

Freelance Front End Developer (Remote)   01/2024 – present
- Delivered 5+ custom React.js websites for clients across eCommerce and portfolio niches, improving user engagement by up to 40% through intuitive UI and responsive design.
- Transformed client ideas into sleek, mobile-first interfaces using Tailwind CSS and Bootstrap, ensuring 100% cross-browser compatibility and fast load times.
- Integrated RESTful APIs and dynamic components using React Hooks and Context API, reducing development time by 30% while maintaining scalability and maintainability.

Junior Web Developer, *Brainwave Matrix Solutions*   02/2023 – 12/2023
                                                                           India
- Delivered production-ready web features using React.js, Tailwind CSS, and Bootstrap
- Built and integrated scalable back-end services with MongoDB and Firebase, enhancing real-time user engagement.
- Played a key role in an Agile team, contributing to the successful launch of three client-facing platforms within tight deadlines.

Technical Intern, *Rourkela Steel Plant*   03/2022 – 08/2022
                                                                 India
- Assisted in modernizing internal systems by helping transition legacy .NET modules to a React-based front-end.
- Contributed to building a real-time dashboard for tracking gate pass and document workflows.
- Supported database optimization and API integration tasks using MS SQL and RESTful services..

PROJECTS

Octavion, *Fuel Station Management System* 🔗   06/2023 – 11/2023
- A full-stack dashboard to streamline fuel station operations, including inventory tracking, employee management, and sales analytics using the MERN stack.
- Implemented secure user authentication and role-based access control to ensure data integrity and operational transparency.
- Integrated real-time data visualization and reporting tools to enhance decision-making and reduce manual record-keeping efforts.

SkillSync, *Job & Learning Tracker (MERN Stack · In Progress)*
- Developed a full-stack productivity tool with a responsive React/Tailwind dashboard and RESTful Node.js/Express APIs featuring JWT-based authentication, role management, and MongoDB schema design for tracking job applications, skills, and learning goals.
- Integrated advanced features including email reminders via Nodemailer and AI-powered resume analysis using the OpenAI API to enhance user engagement and career growth.

TECHNICAL SKILLS

Programming & Frameworks:
JavaScript (ES6+), React, Node.js, Express, MongoDB, RESTful APIs, JWT Authentication, Tailwind CSS, HTML5, CSS3, React Router

Cloud & DevOps:
AWS Certified Developer (EC2, S3, Lambda), Microsoft Azure Developer Associate, Git, GitHub, CI/CD basics

AI & Tools:
OpenAI API integration, AI-powered resume analysis, IBM AI Engineering concepts, Machine Learning fundamentals

Databases & Data Management:
MongoDB (schema design, aggregation), Mongoose, SQL basics

Other:
Responsive Web Design, Email Automation (Nodemailer), Agile methodologies, Version control, Role-based access control (RBAC)

EDUCATION

Bachelor of Computer Science Engineering (Hons.), *Biju Pattnaik University of Technology* 2022

CERTIFICATES

- Meta Full Stack Developer Certificate – Coursera
- Microsoft Certified: Azure Developer Associate
- AWS Certified Developer – Associate – Amazon Web Services
- Responsive Web Design - FreeCodeCamp
- IBM AI Engineering Professional Certificate – Coursera
